

BKKS ROAD SAFETY POLICY

Good HSE performance is critical to the success of our business.

This statement is the cornerstone of the “BKKS” LLP policy on Safety on Road Transport Operations

To meet our goal of zero RTI “BKKS” LLP road transport operations following safety expectations:

- Line management has clear responsibility for road safety performance and will ensure that accountability are allocated at all levels.
- Risk assessments will be conducted for all road transport operations.
- Training and assessment procedures will be in place to ensure appropriate levels of skills for all drivers. No personnel will be permitted to drive without prior training.
- Maintenance and servicing routines are established to ensure mechanical integrity of all vehicles.
- Safety belts, where fitted, will be used by all drivers and passengers.
- Speed limits will be set and complied with and monitored through In Vehicle Monitoring Systems (IVMS).
- All road incidents and near misses will be reported and investigated, and the lessons learned will be widely communicated, through all Company, Contractor and Subcontractor personnel.
- Periodic audits and inspections will be conducted to verify compliance with the company rules and procedures.

“BKKS” LLP Deputy General Director
